Dr. Prabhakar Kore

Chairman, KLE Society, Belagavi

K. L. E. Society

KLE Society, established in 1916, has been playing a key role in the educational and socio-economic uplift of North Karnataka region. "SAPTARSHIS", seven saintly teachers, self-sacrificing, devoted and inspirational juvenile graduates had determined to institute an educational organization. They had placed before them the ideals of Truth, Love, Service and Self-Sacrifice as beacon lights.

Under the Visionary Leader Dr. Prabhakar Kore, over the years, a variety of institutions from Nursery School to Post-Graduation found their place in the educational map of the KLE Society. At present, the Society is running the institutions in all the spheres of knowledge such as Humanities, Physical Science, Medical Science, Agricultural Science, Engineering and Technology, etc. The society has entered into collaboration with as many as fourteen foreign Universities. KLE Society now has 293 institutions with 1.38 lakh students and 18,000 Staff.

Our alumni working in various positions all over the world are our brand ambassadors, promoting the KLE Culture.

About College

In the year 1961, our Society with a mission to eradicate ignorance and illiteracy among people of the region and to educate them, started an Arts and Science College at Nipani. Then, this was the only college catering to educational needs of the major parts of Belagavi and Vijayapur districts of Karnataka. In 1977, with growing importance of commerce, Society has introduced Commerce stream.

Named after, Late Shri. G. I. Bagewadi, the College remains as an epicenter of knowledge and education for student community. The management has left no stone unturned in materializing the noble dreams of its founding fathers. Our team of enthusiastic, hard-working and self-motivated staff functions as the backbone of this institution.

We make available our students an environment loaded with knowledge and encouraging their curricular and co-curricular interest. The College put into practice innovative teaching methods and organizes activities on a regular basis to nurture our students in all respects. We mould our students for acquiring knowledge and equip them better to face the global challenges. The history of this college inspires all the students to be positive, confident thorough and equipped to face the challenges of the globalized competitive world.

About the Event

This exhibition provides platform for the students to use the scientific knowledge and bring out the best inventions and innovations from their brains. Students get an opportunity to explore their classroom knowledge in these exhibitions and develop the taste for learning by doing. It helps to shift their learning attitude from theoretical study to practical implementation in a unique ways by transforming their ideas into projects they learn to showcase it and thereby boosting their confidence to higher level.
