## OUR SOCIETY

The seven great aspirants of education called "Saptharishis" on 13<sup>th</sup> November, 1916 founded an Anglo Vernacular school in Belagavi to provide basic literacy to children of the farming community of North Karnataka and Maharashtra. More than ten decades the KLE Society has been playing a vital role in the academic and socio-economic upliftment of North Karnataka region by imparting education from UG to PG. Today KLE Society is emerged into nationally and internationally acclaimed a giant educational institute of more than 270 institutions, 16,000 dedicated faculty serve their best to cater the needs of about 1,25,000 students every year. The courses offered are in Basic Social Science, Management, Tourism, Hotel Management, Engineering and Technology, Nursing, Pharmacy, Dental, Medical Sciences, Educational training etc. The Society has established collaborations with prestigious international educational institutions of UK, USA, Malaysia, China, UAE and Zimbabwe. The great visionary, our beloved Chairman Dr. Prabhakar Kore, M.P. and Chancellor of KLE University, Belagavi assisted by the dynamic Board of Management, deserves special acknowledgement for the quantum leaps and spectacular growth that the society has achieved over the last three decades. The college is actively involved in research and extension endeavors. We have 18 Doctorates and 6 M. Phil. faculty on role and 5 staff members are pursuing Ph.D.

## NATIONAL FACULTY DEVELOPMENT PROGRAMME

Research is in every way as necessary and helpful to the study of social sciences as it is to that of Natural Sciences. Any discipline which claims our intellectual attention and has demonstrated its ability and potentiality will flourish and be effective and purposeful only if research is conducted in it. India is among the topmost countries in the world in the field of scientific research, and positioned as one of the top five nations in the field of space exploration. The country has regularly undertaken space missions, including missions to the moon and mars and the framed Polar Satellite Launch Vehicle (PSLV). At last the NEP 2020 has realised the importance of research in a country's economic growth. The Indian Technical and Management education sector is undergoing drastic changes. The focus is shifted from public sector

private sector up in technical education. The use of digital technologies is the employment of Internet technologies, tools and services as objects of research but also as tools and platforms for the conduct of research and the creation of innovative methodological practices. India providing a tremendous potential to the creation of a knowledge society. This FDP enables participants to understanding of recent trends of research in India.

Objectives of the Event	1 These energy resources are renewable, meaning they're naturally replenished. In contrast, fossil fuels are a finite resource that take millions of years to develop and will continue to diminish with use. 2 Renewable energy sources also have a much smaller impact on the environment than fossil fuels, which produce pollutants such as greenhouse gases as a by-product, contributing to climate change.
Outcome of the Event	Green energy, however, utilizes energy sources that are readily available all over the world, including in rural and remote areas that don't otherwise have access to electricity .
